Date of birth:	07.07.1989

Profile

I have programmed since 2012, mostly in Java. Programming is my greatest passion. Much of my spare time is used to accumulate more programming skills by learning new programming languages, keeping updated with the field and engaged in exciting projects. When working with projects I am focused and precise, I will never give up before finding a solution.

Technology

Java, C#, C++, Haskell, MathLab
